

Art 991 **RISANA**

Mold cleaning solution

GENERAL SPECIFICATIONS:

It is a mold cleaning solution for walls that have mold spots.

ADVICE:

- Protect the product from frost
 - Used at temperatures from 10°C-30°C
 - After use, work tools should be cleaned with water
 - Store the product in dry places and away from contact with the sun and heat sources
-

APPLICATION DETAILS:

On the surfaces of the walls where mold has been created as a result of condensation or poor ventilation of the environment, it is necessary that before applying the primer and paint technically necessary for this environment, the surface must first be cleaned well with Risana. Risana is sprayed on the mold spots and left for a certain time until its effect has eliminated the mold up to the interior of the contaminated surface. After that, the surface is cleaned AND ready for the further steps of wall treatment.

CHARACTERISTICS:

Bonding:	With Water-based resins
Visual aspect:	transparent yellow
Dilution:	ready for use
Packaging:	0.5lt

All the above technical data are the fruit of our experience, they have a guiding character for the final result. The data in the technical tab can be changed based on possible changes in raw materials and production technology. Before using the product, we always advise that a preliminary test is done with the product*
